15. ADDITIONAL INFORMATION FOR CALIFORNIA RESIDENTS

This section applies to California residents and supplements the rest of this Policy. It is meant to meet the California Consumer Privacy Act, as amended by the California Privacy Rights Act (together, the "CCPA"), and California's Online Privacy Protection Act. If this section conflicts with another part of this Policy, this section controls for California residents.

15.1 Who this covers. In this section, "personal information" means information that identifies, relates to or could reasonably be linked to a particular California resident or household. It does not include information that is publicly available, de-identified or aggregated.

15.2 Information we collect, and why. In the past 12 months, we have collected or may have collected the following categories, only from people who contact us or use features that send information to us:

Category	Examples	Source	Why we use it
Identifiers	Name, email address, phone number, IP address	You; your device	Support, updates, security
Customer records	Business name, venue, billing details [if applicable]	You	Account, billing, support
Internet or device information	Program version, operating system, technical data sent when checking for updates [confirm]	Your device	Updates, security, fixing problems
Communications	Messages you send us	You	Answering you

We do not collect precise geolocation, biometric information, or other sensitive personal information as the CCPA defines it.

Information that stays on your own computer, such as your settings, scores, queues and files, is not collected by us unless you send it to us.

15.3 We do not sell or share personal information. In the past 12 months, we have not sold personal information, and we have not "shared" it for cross-context behavioral advertising. Because we do not sell or share, we do not offer a "Do Not Sell or Share My Personal Information" link. We do not knowingly sell or share the personal information of anyone under 16.

15.4 Disclosures for a business purpose. In the past 12 months, we may have disclosed the categories above to service providers who help us run the Program (for example hosting, update delivery or email), under contracts that limit how they may use the information.

15.5 How long we keep it. We keep each category only as long as needed for the purpose it was collected for, or as the law requires.

15.6 Your California rights. You have the right to:

- **Know:** ask what personal information we collected, used, disclosed or sold, and the sources and purposes;
- **Access:** get a copy of the specific personal information we hold about you, in a portable format where feasible;
- **Delete:** ask us to delete the personal information we collected from you, with legal exceptions;
- **Correct:** ask us to correct inaccurate personal information;
- **Limit:** ask us to limit use of sensitive personal information (we do not use it beyond what the law permits);
- **Opt out** of sale or sharing (we do not sell or share);
- **Non-discrimination:** be treated equally. We will not deny you the Program, charge different prices, or give you a different quality of service because you used these rights.

15.7 How to make a request. Email Support@bighat.live. We will verify your identity by matching the details you give us to what we hold, and we may ask for more if needed. We will confirm receipt within 10 business days and respond within 45 days. If we need more time, we can extend by up to 45 more days and will tell you why.

15.8 Authorized agents. You may use an authorized agent to make a request for you. We may require proof that they are authorized and may ask you to verify your identity directly.

15.9 Information on a host's computer. If you are a guest at an event and gave your information to a host (for example, a team name or song request), that information is held by the host and not by us. Please contact the host. We cannot access or delete data on a host's computer.

15.10 Do Not Track and Global Privacy Control. The Program does not track users across other websites or online services. We do not currently respond to browser "Do Not Track"

signals because there is no common standard for them. [If you add a website with advertising or analytics, update this and honor Global Privacy Control signals as an opt-out.]

15.11 Californians under 18. If you are under 18 and a registered user of an online service of ours, you may ask us to remove content you posted. Contact us as described above. Removal does not ensure complete or comprehensive removal from every system.

15.12 "Shine the Light." California Civil Code section 1798.83 lets California residents who have an existing business relationship with us ask which categories of personal information we shared with third parties for their direct marketing in the prior year. We do not share personal information with third parties for their direct marketing.

15.13 Changes and complaints. We will update this section when our practices change. You may also contact the California Privacy Protection Agency (cppa.ca.gov) or the California Attorney General with a concern.
